The University of Hong Kong
Postgraduate Studies at HKUCS

Department of Computer Science
The University of Hong Kong

2020
THE UNIVERSITY OF HONG KONG (HKU)
Renowned Tradition
- Hong Kong’s first tertiary institution since 1912

International Recognition
- The latest QS (Quacquarelli Symonds) World University Ranking 2021 placed HKU as the 22nd ranked university in the world.

Academic Excellence
- Top-tier academic and research staff from around the world

Cross-Cultural Exposure
- Mix of international faculty and students
- English-speaking university
HKUCS Postgraduate Programmes

- M Phil/ PhD
- M Sc in Computer Science
- M Sc in Electronic Commerce and Internet Computing
- M Sc in Financial Technology and Data Analytics
- Master of Data Science
NEW FINTECH MASTER PROGRAMME
(FIRST INTAKE SEP 2021)
The Programme Management Team

- Dr KP Chow
- Dr Allen Au
SOME HIGHLIGHTS

- Truly interdisciplinary and highly integrated programmes
- Two-year part-time curriculum
- Target intake: 60 students
- Enrolment mode:
  + 10 Courses (at least 60 Credits)\(^{\wedge}\) + Project (12 Credits)
- Tuition fee: HK$250,000 for the 2021 intake

\(^{\wedge}\)Most courses in the curriculum has 6 credits. However, courses offered by Faculty of Law has 9 credits.
UNIQUENESS

MSc(FTDA) has an interdisciplinary curricula by drawing on the expertise from diverse areas of engineering, law, statistics and business, with a technology focus. Courses are offered from different disciplines.

- Computer Science (COMP)
- E-commerce (ECOM)
- Financial technology (FITE)
- Industrial and manufacturing engineering (IELM)
- Statistics (STAT)
- Data science (DASC)
- Business and Finance (MFIN)
- FinTech (Technology)
- FinTech (Finance and Law)
- Law (LLAW)
# CURRICULUM

## List A: Disciplinary compulsory courses

(3 courses, 21 credits)

<table>
<thead>
<tr>
<th>Discipline</th>
<th>Course</th>
</tr>
</thead>
<tbody>
<tr>
<td>Technology</td>
<td>FITE7409 Blockchain and cryptocurrency (6 credits) or COMP7408 Distributed ledger and blockchain technology (6 credits)</td>
</tr>
<tr>
<td>Finance</td>
<td>MFIN7002 Investment analysis and portfolio management (6 credits)</td>
</tr>
<tr>
<td>Law</td>
<td>LLAW6093 Regulation of financial markets (9 credits)</td>
</tr>
</tbody>
</table>

# Students holding a non-computer science major should select FITE7409 Blockchain and Cryptocurrency while candidates holding a computer science major should select COMP7408 Distributed Ledger and Blockchain Technology.
List B: Disciplinary courses
(3 courses, 18 credits)

<table>
<thead>
<tr>
<th>List B-1</th>
<th>List B-2</th>
</tr>
</thead>
<tbody>
<tr>
<td>(with at least 6 credits from courses below)</td>
<td>(with at least 6 credits from courses below)</td>
</tr>
<tr>
<td>COMP7802 Introduction to Financial computing (6 credits)</td>
<td>FITE7407 Securities transaction banking (6 credits)</td>
</tr>
<tr>
<td>COMP7906 Introduction to cyber security (6 credits)</td>
<td>FITE7410 Financial Fraud Analytics (6 credits)</td>
</tr>
<tr>
<td>ECOM6016 Electronic payment systems (6 credits)</td>
<td>STAT6013 Financial data analysis (6 credits)</td>
</tr>
</tbody>
</table>
## CURRICULUM

### List C: Disciplinary courses

(4 courses with at least 24 credits)

<table>
<thead>
<tr>
<th>List C-1</th>
<th>List C-2</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>List C-1</strong> (with at least 6 credits from courses below)</td>
<td><strong>List C-2</strong> (with at least 6 credits from courses below)</td>
</tr>
<tr>
<td>FITE7405 Techniques in computational finance (6 credits)</td>
<td>ECOM6023 E-financial services (6 credits)</td>
</tr>
<tr>
<td>FITE7406 Software development for quantitative finance (6 credits)</td>
<td>IELM7018 Financial engineering (6 credits)</td>
</tr>
<tr>
<td>FITE7801 Topics in financial technology (6 credits)</td>
<td>LLAW6046 Privacy and data protection (9 credits)</td>
</tr>
<tr>
<td>COMP7103 Data Mining (6 credits)</td>
<td>LLAW6126 E-Finance: law, compliance and technology challenges (9 credits)</td>
</tr>
<tr>
<td>COMP7305 Cluster and cloud computing (6 credits)</td>
<td>LLAW6256 Law of anti-money laundering and counter-terrorist financing and compliance issues (9 credits)</td>
</tr>
<tr>
<td>COMP7404 Computational intelligence and machine learning (6 credits)</td>
<td>MFIN7034^ Machine learning and artificial intelligence in finance (6 credits) or MFIN7037^ Quantitative trading (6 credits)</td>
</tr>
<tr>
<td>DASC7606 Deep learning (6 credits)</td>
<td>STAT6015 Advanced quantitative risk management and finance (6 credits)</td>
</tr>
<tr>
<td>STAT8020 Quantitative strategies and algorithmic trading (6 credits)</td>
<td></td>
</tr>
</tbody>
</table>

^ Students can select either MFIN7034 Machine learning and artificial intelligence in finance or MFIN7037 Quantitative trading.
Capstone requirement

(12 credits)

- All students would have to enrol in FITE7001 Project.
- Recommend to be a group project.
- Can be case study or software prototype implementation.
- **Not** required to be basic research.
Collaborate with The Hong Kong Applied Science and Technology Research Institute (ASTRI) to cultivate future FinTech talent.

This scheme is for **first-year students** enrolled in MSc(FTDA), suitable for newly graduate in June 2021.

ASTRI will provide paid full-time employment for up to 30 students for a nine-month period and assigning them to one of ASTRI’s many ongoing FinTech projects.

Students can gain practical experience while doing their internship with local financial institutions.

It is optional for MSc(FTDA) students to join the Work-Study Scheme.
ADMISSION REQUIREMENTS

- A Bachelor's degree in Engineering or Science discipline with honours; or an equivalent qualification

- For applicants graduating from universities not using English as a teaching medium
  - English Language Proficiency Requirement
    - TOEFL: 550 or above (paper-based test) or 80 or above (internet-based test)
    - IELTS: a minimum overall band of 6 with no subtest lower than 5.5
ADMISSION PROCEDURES

- Online application ONLY:
  
  http://hku.hk/tpg/

- Application deadlines

<table>

We offer scholarships to attract and reward the best students. All scholarships shall be awarded on the basis of academic merit and personal qualities.

HKU-SCF Scholarship in Financial Technology

The HKU-SCF FinTech Academy will offer five scholarship*, each at the value of HK$60,000, exclusively for MSc(FTDA) and MSc(CompSc) [Financial Computing Stream] students. It shall be awarded to local students who are Hong Kong permanent residents.

* Supported by Standard Chartered Hong Kong 150th Anniversary Community Foundation (SCF).
THE UNIVERSITY OF HONG KONG

MSc in Electronic Commerce and Internet Computing

Innovate your Global Business with Technology
Our Mission

- To deliver the best e-commerce and Internet computing Master-level programme
- To bridge between technology and business
- To meet the demand of the mature students with a state-of-the-art in curriculum
- To build a growing community and network of e-commerce professionals in various businesses & occupations for Hong Kong & China
The Programme Management Team

- Dr KP Chow – Programme Director
- Professor CL Wang – Associate Programme Director
- Professor Paul Cheung – Project Coordinator
How We Make a Difference

- **First of its kind in Hong Kong since 1999**
  - We have attracted the cream of the applicants to build a solid foundation

- **International and Responsible Faculty**
  - About half of our instructors are overseas experts knowledgeable about the latest developments in global e-business
  - All instructors are subject experts with understanding of business applications of Internet and communication technologies
  - All instructors take their teaching responsibility seriously to enthuse and interest you
MSc Degree – Complete 72 credits

- Enrolment modes:
  - 10 Courses (60 Credits) + Case Study Project (12 Credits) or
  - 8 Courses (48 Credits) + Dissertation (24 Credits)

^ Each course normally carries 6 credits.
Curriculum – Discipline courses
At least 4 out of 8 Fundamental courses

</table>

* The curriculum is subject to review every year. New courses may be added to the curriculum and some courses may be removed. Some courses are only offered in alternate years.

Cross-curriculum enrolment

- May select up to 12 credits of elective courses (i.e. normally 2 courses) from other taught-postgraduate programmes in the Faculty of Engineering, e.g. MSc(CompSc), MSc(Eng)(EEE)
- Subject to approval by the directors of the home programme and the offering programme
Capstone Requirement

- All students would have to enrol in either a Case Study Project (ECOM7001) or a Dissertation (ECOM7000)
- Normally the project starts after the student has completed at least 2 courses of the degree
- All projects should commence in the second semester of an academic year

<table>
<thead>
<tr>

<td>5 - 8 semesters</td>
</tr>
</tbody>
</table>
Case Study Project
12 credits (equivalent to 2 courses)

- Designed for students interested in real E-Commerce experience and integration of what have been learned
- Work on an innovative E-Commerce business plan and try to execute the plan as a genuine company
- Work in group of 4 (nominal, min 3 - max 5)
Case Study Project
12 credits (equivalent to 2 courses)

Some project titles:
- DigNews
- STEM Course Matching Platform
- BitComp - The Price Quoting Platform of Cryptocurrencies
- Return Water - Flight Compensation Claim
- Secretarial Management Solutions
Dissertation
24 credits (equivalent to 4 courses)

- Designed for research-oriented students with a suitable background to work on a substantive, in-depth dissertation of a Master-degree level, in an area of E-Commerce technology or business topic
- Self-proposed individual project
Words from our graduates

Vincent Chung (Class of 2020)
System Analyst, Speedy Group Corporation Limited
“I chose to study in MSc(ECom&IComp) because the programme allows me to customize my own course profile based on my interest. If you are already a tech-savvy, you might consider taking more ICOM courses or some CS electives to challenge your problem solving skills and broaden your technical knowledge. The Case Study Project impressed me most with this programme. I enjoy thinking about different creative and feasible ideas, then select the best one with my teammates and turn it into reality.”

Adrian Darmansyah (Class of 2020)
Engineer, ARUP
“I would recommend this programme to the prospective students who are keen to discover unique approaches particularly in adoption of transformative technologies. To those who have accepted the offer to enter the programme, I would highly encourage taking the more challenging courses offered within this programme, as they are rewarding and well worth your time and effort.

Shizhu Wang (Class of 2020)
“The most amazing part of HKU MSc(ECom&IComp) programme is its wide spectrum of topics covering the most updated technologies and applications around the globe. All lectures are well designed, prepared and given by domestic or overseas experienced professors.”
2020 Admission

- Total number of applicants: > 540
- Total number of students admitted: 118
  - 72 Part-time
  - 46 Full-time
- Age range: 22-66
- Undergraduate degrees: BBA, CS, Accounting, Translation, Arts, etc.
Admission Requirements

- A Bachelor’s degree with honours, or an equivalent qualification

- For applicants graduating from universities not using English as a teaching medium
  - English Language Proficiency Requirement
    - TOEFL: 550 or above (paper-based test) or 80 or above (internet-based test)
    - IELTS: a minimum overall band of 6 with no subtest lower than 5.5
Programme Fees

- Each 6-credit course: HK$13,000
- Case Study Project: HK$26,000
- Dissertation: HK$52,000

Total composition fee for the two enrolment modes:
- 10 courses + Case Study Project:
  \( (HK$13,000 \times 10) + HK$26,000 = HK$156,000 \)
- 8 courses + Dissertation:
  \( (HK$13,000 \times 8) + HK$52,000 = HK$156,000 \)
